Here's the state's game-changer --- the complete streets (CS) law.

<https://www.cga.ct.gov/2009/ACT/PA/2009PA-00154-R00SB-00735-PA.htm>

The DOT in response to the law recently (May '15) issued a CS policy

[http://www.ct.gov/dot/lib/dot/plng\\_plans/bikepedplan/cs-exo31-signed.pdf](http://www.ct.gov/dot/lib/dot/plng_plans/bikepedplan/cs-exo31-signed.pdf)

Note the paragraph in the second paragraph beginning with: "As a condition of funding." One objective that the State Bike/Ped Board has been working toward is giving priority to project funding for communities that embrace complete streets.

Here is "the design toolbox" from the 2009 state bike/ped planning document.

<http://www.ct.gov/dot/lib/dot/documents/dbikes/2009appendixf.pdf>

And the State/Ped Board issues annual reports:

[http://www.ct.gov/dot/lib/dot/plng\\_plans/cbpab/2014/cbpab\\_2014\\_annual\\_report\\_final.pdf](http://www.ct.gov/dot/lib/dot/plng_plans/cbpab/2014/cbpab_2014_annual_report_final.pdf)

Also ConnDOT has a good section on bike/ped on their web site.

<http://www.ct.gov/dot/cwp/view.asp?a=3531&q=259658&dotPNavCtr=|#40030>

And the recently enacted "Bike Bill" for 2015.

<https://www.cga.ct.gov/2015/TOB/S/2015SB-00502-R01-SB.htm>

The Bike Bill states that a cyclist may "take the lane" if he or she deems it appropriate. It also allows a vehicle passing a cyclist to do so in a no passing zone providing that certain other reasonable conditions are met,
